

## Quality Policy Statement

The scope of Project Development International Ltd (PDi) business activity encompasses the provision of Project Management, Engineering, Quality and Third party Inspection services providing development solutions to the Oil and Gas and Renewables industry from discovery to implementation.

Project Development International Ltd (PDi) recognises the importance to its future of adopting a strategy, which bases the development of its business on the pursuit of quality throughout the organisation.

This commitment to quality is based on the principle that the effective and consistent implementation of operational systems, which reflect both customer and business requirements, will result in the continuous satisfaction of customer needs.

It is the policy of the Company to achieve this through the continual improvement of the Company's activities by the planning, setting and implementation of specified and measurable quality objectives by the Management Team and the regular review of the effectiveness of the management system via the Management Review process.

This commitment is based on the implementation of a management system that reflects the business requirements of the Company. This management system is defined in a documented management manual, which provides clear standards and guidelines in all the appropriate areas of the Companies activities.

It is the intent of the Company that its management system will, at a minimum, satisfy the requirement of its customers, the EN ISO 9001:2000 Quality Management Systems standard, and all legal and regulatory requirements.
